The stylish RiZZ | Outdoor and Indoor brooms complete the range with a matching design. In addition to the exclusive look, all RiZZ products excel in functionality and durability.

## RiZZ OUTDOOR AND INDOOR MAT

The outdoor mat scrapes the dirt from your shoes, the indoor mat dries the sole. The brush strips in the outdoor mat remove 80% more dirt than other mats. Unique benefit is that the dirt falls between these strips and is then drained by rain or blown away by wind. Combined with a solid aluminum frame, the mat forms a strong and durable product that you will enjoy for 10+ years to come. The indoor mat has a top quality interior which has up to 80% more absorption capacity. Unique to the indoor mat is also that the non-slip underlay does not contain chemicals that can affect a wooden or marble floor. This mat is finished with a genuine leather edge. Because of this edge finish, it matches very nicely with the outdoor mat.

## RiZZ OUTDOOR AND INDOOR BROOMS

The brooms have a closed structure. As a result, the dirt does not stick in the broom, but is actually swept away. The outdoor broom is robust with sturdy brushes for coarser dirt, the indoor broom has softer brushes for finer dirt and dust. Available in the same colours as the mats, they form a beautiful design concept for keeping the house and terrace clean.
