TEAK, CRAFTS & INNOVATION

TEAK, CRAFTS & INNOVATION

With a series of uniquely styled products, Gloster offers the opportunity to mix and match with an extensive range of diverse product collections.

From modular seating through dining tables & chairs, lounge and deco items, our collections combine sophisticated fabrics, textured powder coat finishes and of course our signature finish, plantation teak.

H

OUR HERITAGE

Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. By the late 1980's, increased demand and access to plantation grown teak led us to move our factory to Indonesia. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.

TEAK & PLANTATIONS

The benchmark hardwood for fine outdoor furniture for more than 700 years. With a beautiful, soft natural finish, every piece of Gloster teak originates from carefully managed plantations and is thoroughly inspected to ensure that quality endures. A close-grained hardwood with a high natural oil content, teak is exceptionally hard wearing, highly resistant to rotting and almost impervious to the effects of sun, rain, frost or snow - the first and only choice of timber for outdoor furniture.

Gloster's production of teak is characterised by our approach. We understand our resources and we know our wood. A Gloster teak tree has a lifecycle of at least 50 years - and our wood can always be traced back to its origin. We believe that our customers must be able to trust us, so we treat the world, its resources and its people with respect.

D

DESIGN & INSPIRATION

Of course, great manufacturing is wasted without great design. Gloster currently works with several world-renown designers to create timeless outdoor furniture. Once a concept is approved, designers work closely with the development team at our factory to further refine their designs. And even in this digital age, we insist our designers travel to and spend time at our factory so they get to know our people, our raw materials and our philosophy.

COLLECTIONS FOR THE MODERN ERA.

DECK

Elegant and uniform, the linear style of Deck defines the Gloster design aesthetic. Inspired by teak decking on the fastest and finest sailing vessels of yesteryear, the simple, yet visually striking design invokes an uncompromising air of quality and craftsmanship. Arrange them any which way you find suitable, then rearrange once more. Deck lounge can be formulated as just a single module, or an infinite number for your perfect combination.

BORA

A combination of the tactile and the ethereal, Bora alludes to the imposing winds that buffet the Adriatic coast. The name evokes a sense of the remote and the exotic, painting a path to the horizon where oceans and skies meet and continents crumble into archipelagos. The Bora collection embraces these flights of fancy, pairing them with functional requirements to flow flawlessly into a form to be reckoned with.

NAVIGATOR

Shaped by memories of a classic era of luxurious travel when adventurers and explorers sought portable comfort as they travelled, Navigator is a contemporary interpretation of vintage campaign furniture. The inline folding X-frames are achieved with ingenious, hidden engineering and paired perfectly with both fixed and articulated, brushed stainless steel junctions - cleverly elevating heritage style to pioneering plush.

RELAXATION IS ABOUT PERFECT SPACE. ABOUT COMFORT AND CONVENIENCE. A BLEND OF PERSONAL STYLE AND THE SIMPLICITY OF KEEPING YOUR FAVOURITE THINGS CLOSE AT HAND. SO IT'S NO SURPRISE THAT GLOSTER LOUNGE OFFERS THE INGREDIENTS TO MIX THE PERFECT PERSONAL RELAXATION RECIPE. AND, AS WITH ALL THE BEST IDEAS, SIMPLICITY IS THE KEY WITH OUR MODULAR COLLECTIONS PROVIDING THE BUILDING BLOCKS TO CREATE ALMOST LIMITLESS DESIGN POSSIBILITIES.

HAVEN

Haven. The name alone suggests a hideaway and it's with only the smallest shift of consciousness one can imagine drifting in a calm bay securely cradled by an exquisitely crafted vessel. Lying beneath the sun, one hand tracing the gently curving lines of the graceful hull holding you safe on the still waters of your very own retreat. A cooling breeze invites the sun to dance across the surface of the ocean and the shimmering light signals a personal message that this tranquility is yours alone to enjoy.

HAVEN

Designed with a nod to the nautical, Haven's solid teak frame combines deep, gently curving slats to create subtly rounded back and side panels, intended to envelop and enclose and create a sheltered and comforting environment in which to relax. This sense of security and comfort is further emphasised with a deep and luxurious cluster of seat cushions and back pillows.

GRID

Danish designer Henrik Pedersen conceived Grid as a bridge between stark minimalist design and large scale luxury. By combining slim, aluminium frames powder coated in Meteor, White or Java with the elegant geometric forms of deep and comfortable seat and back cushions, Henrik has surpassed his goal.

GRID CABANA

Grid Cabana combines solid cast feet and corners with extremely strong, extruded aluminium rails and the same basic frame structure can be assembled with any combination of the available back and roof panels, and fabric screens.

Select from Meteor, White or Java colour, powder coated aluminium or plantation teak slatted back rest and roof panels. Refine with your choice of fabric for the deluxe bolster pillows and then add either a single or pair of semi-translucent adjustable sling screens.

MAYA

When the Cloud range was launched in 2010, it incorporated new thinking and technology in the design of the upholstered elements and made these as comfortable as their interior cousins. Cloud not only invented the 'outdoor lounge' category, it went on to define it. So how do you improve this? It is often easier for a designer to start again rather than take an existing design and make it better. This was the challenge; the gentle, but meaningful evolution of an existing idea. To distil and keep the spirit of the original, but refresh the aesthetic and expand its possibilities.

Maya takes the principle of the iconic Cloud collection and refines it to reflect and enhance the sophistication of the new Gloster design philosophy. Particular attention has been given to the materials and technologies used that are at the forefront of outdoor furniture design. Maya frames features an ultra-slender powder coated aluminium profile connected to cast aluminium legs. Side and back cushions are subtly revised in profile and detail and additions to the range include console tables and planters that allow for a series of living landscapes to be created outdoors.

ZENITH

Conceived by Danish designer Henrik Pedersen, the Zenith collection consists of a stylish Lounger, matching Lounge Chair, Lounge Chair with Arms, 2-Seater Sofa and Ottoman. All pieces are based on a softly profiled tubular aluminium frame offering a perfect balance of strength and style which is finished with a resilient Meteor colour powder coat. Seats and backs are formed in one continuous plain from hand woven, subtly textured Wheat colour outdoor wicker and topped with luxurious partitioned seat pads available in a variety of weather resistant fabrics.

OMADA

Convenience and calm combine with luxury to define Omada. Based on the timeless principle of 'less is more', an authentically textured wicker in Wheat colour is hand woven around an organically shaped tubular frame finished in colour matched durable powder coating. Nylon glides below ensure combined stability and ease of movement. Above, a quilted one-piece cushion fashioned using Sunbrella outdoor fabrics wraps Omada's contours, promising unequivocal contentment perfectly suited to outdoor use.

MISTRAL

An elegant combination of essential materials, Mistral is comprised of a tapered plantation teak platform supported by gently curving cast aluminium legs. Stylish, upholstered cushion pads provide luxurious comfort with a Koala colour, distressed finish outdoor wicker back panels to complete the look.

BAY

Can you recall that sense of escape? Of finally leaning back, forgetting your worries and staring out across the water towards the setting sun? Henrik Pedersen set out to capture the feel of sitting by the coast when designing the Bay collection. The reclined position emphasises an introspective and relaxed state of mind and is intended to create a sense of being at rest in a safe-haven.

Suitable for quiet family times and day to day life for the style conscious, the vintage lines of Bay's frame are crafted from Gloster's impeccably finished teak combined with upholstered outdoor fabric cushions. A matching slatted teak coffee table and side table complete this timeless collection. Whether single statement piece or complete collection, slender minimal slings or deep seating indulgence, Bay represents a step into a simpler world. Take a moment to lie back and enjoy the view.

CRADLE

It's all about creating defined rooms, your own private oasis in the outdoor area, but still open and exposed to the elements - with a sense of enclosure. Luxurious for one, but big enough for two.

Indulgently conceived by the talented eye of respected Danish designer Henrik Pedersen, Cradle is the epitome of luxury. More than large enough for two, Cradle surrounds and comforts. With a selection of shades, privacy can be adjusted to suit. A variety of finish and fabric options as well as an integrated side table mean you can create your very own haven.

DINING

TABLES CAN BE LARGE OR SMALL, SOCIAL OR INTIMATE. SHAPES RANGE FROM ROUND, THROUGH SQUARE TO RECTANGULAR - SOME CAN EVEN FOLD UP FOR WHEN STORAGE IS LIMITED. ALL IN ALL, THE TABLE HAS QUITE A JOB TO DO, SO JUST AS WELL WE OFFER A WIDE VARIETY OF OPTIONS TO HELP FIND THE ONE THAT IS PERFECT FOR YOU.

AND THE PERFECT CHAIR SHOULD NEVER GO UNNOTICED IN THE FRAY OF A SOCIAL OCCASION. EASY TO MOVE AND COMFORTABLE FROM FIRST SIT TO LAST DRINK OF THE NIGHT YOUR SEATING SHOULD BE THE PERFECT ACCOMPANIMENT TO ANY EVENING. WHETHER MODERN OR TRADITIONAL, CONVENIENTLY STACKING OR DESIGNED TO ENDURE, EACH CHAIR HAS ITS PLACE.

CARVER

Designer Henrik's statement is to the point: "In the same way that an artist carves in stone or wood to create a unique form, the same way of thinking has been applied to the Carver tables, like pieces hewn from a solid block." It's easy to see this inspiration... where the cross-rail and legs have been subtly sculpted it doesn't take much to imagine the space between being solid before the legs and frame are skilfully cut with delicate angles.

In normal mass production, timber is regulated, ordered, standardised to conform to strict manufacturing parameters. But with the Raw concept, we celebrate the unpredictable and revere the irregularity of nature. Raw furniture proudly displays every growth ring, every knot and every graceful ebb and flow of the wood grain formed as each of Gloster's plantation grown teak trees mature.

KASHA

The obvious match for any rounded or soft dining collection, the soft lines and natural tones of Kasha's rounded ceramic bases combine perfectly with solid, plantation teak table tops. Eye-catching and inspiring, these striking dining tables beautifully reflect light across their soft, round surfaces while adding character to any outdoor space.

DECK

A flat wooden surface, both long and wide, but at the same time almost transparent. Elegant, uniform and crafted from solid plantation teak, the linear style of the Deck tables defines the Gloster design aesthetic. Inspired by teak decking on the fastest and finest sailing vessels of yesteryear, the simple, yet visually striking design invokes a uncompromising air of quality and craftsmanship.

WHIRL

As the name suggests, Whirl by Danish Designer Henrik Pedersen is predominantly round. This signature table in the collection is based on a full disc - without a beginning or an end, as Pedersen says; "The perfect template for creating a place where you can come together and communicate freely. Indeed, the ideal shape for a table."

GRID DINING

Conceived as a bridge between stark minimalist design and large-scale luxury, Grid merges functionality and understated design into a single, defined element. Grid's modular format is the perfect solution for deeply comfortable seating in a stylish world and now benefits from the addition of a selection of relaxed dining items. A pair of sofas, either with or without an arm combine with a stylish, pedestal dining table available with teak or ceramic top.

SIMPLY SELECT YOUR PREFERRED STYLE AND CHOOSE FROM A VARIETY OF PRODUCTS IN THE KNOWLEDGE THAT EVERYTHING HAS BEEN CONSIDERED AND OPTIMISED TO ENSURE PERFECT INTEGRATION.

BORA

A combination of the tactile and the ethereal, Bora alludes to the imposing, climatic winds that buffet and ruffle the Adriatic coast. Simultaneously the name evokes a sense of the remote and the exotic, painting a path to the horizon where oceans and skies meet and continents crumble into archipelagos.

The Bora collection embraces these flights of fancy, pairing them with functional requirements to flow flawlessly into a form to be reckoned with. The rounded expression of circles in the woven backs, create a soft and inviting seating comfort. Inspiring trust and guaranteeing stability, a wide, strong stance is artfully formed from plantation teak in a peerless combination of fine craftsmanship and classic, mid-century, Scandinavian style.

BORA

Seating for all occasions is provided by a comprehensive range of Dining Chair, Lounge Chair, Sofa and Ottoman. All are available in two wicker combinations – either the bold and dark Umber or a lighter, warmer Sorrel colour, and incorporate luxurious seat and back cushions designed specifically for outdoor use. Although using manmade fibres, through a clever combination of individual strands of varying colour and the application of a distressed, tactile finish, Bora's woven element achieves an unquestionably natural simplicity.

LIMA

The essence of natural and tactile materials are brought together into one, defined element in the Lima collection by Henrik Pedersen. Plantation teak, outdoor wicker and natural leather are combined in a subtle mix with nature very much in mind throughout the whole design. The variegated colour all-weather wicker features a subtle, distressed finish - giving the furniture a familiar and rustic feel. With practicality at the fore, new additions to the Lima collection offer the opportunity for generous outdoor storage and opulent presentation.

FERN

Inspired by the delicate fronds of a unfurling fern leaf, the Fern Lounge Chair by Sebastian Herkner is an imposing, yet cosy lounge chair with a design language that harks back to nature. Combining Gloster's signature plantation teak with a soft finish outdoor rope, the enveloping, woven back rest both protects and provides the comfort and is attached to a typically Scandinavian style teak frame, which mirrors its contours and underlines the comfort aspects. Two heights of the backrests give the Fern collection two distinct characters - a sumptuous, low lounge chair and a more intimate high back wing chair.

SARANAC

When designing Saranac, Mark Gabbertas imagined a design that combined exceptional comfort with an enduring aesthetic. A design approach which seduced rather than shouted, that one would feel at ease with immediately, and which could continue to charm for years.

Showcasing a solid teak frame with a gentle nod to mid-century influence, Saranac's distinctly contemporary lines please the eye from all angles allowing the collection to appear equally at home in spaces of varying size

KAY

The backrest is unquestionably the defining statement of the Kay range. Deliberately oversized and beautifully curved for comfort, Kay embraces you as you sit offering comfort and shelter. Available in either Brindle, Copper or Harvest colour 'French Cane' style all-weather wicker combined with a delicate teak frame, Kay's lines combine timeless style with practical comfort.

The Kay collection is comprised of a two-seater sofa, an armchair, ottoman and lounger. High and low variations of the back panel are available as options and can be used to create a fully consistent level or a variation in back heights depending on how you wish to style your space.

FRESCO

Twinkling lights pierce a fading sunset on the Riviera. Light and mist vie for dominion of silvery Malibu dawns. Black basalt cobbles radiate warmth as street-life spills into the twilight of a Rome evening. From early in the 1960's, these locations have shared something unique. A certain light, an air, a 'joie de vivre' that captured the imagination of early pioneers of design and experience and continues to draw those with an appetite for refinement and exploration today.

Designed by Matteo Thun and Benedetto Fasciana, Fresco embraces this spirit and style, re-invigorating it with new materials for the current generation of sun seekers and socialites. Combining all of the chic of yesteryear with the benefits of environmentally friendly processes, durable yet comfortable and practical materials and meticulously handcrafted detail.

SWAY

The combination of tactile woodwork, and the super-slim expression of a soft textile sling, makes for high comfort without any compromises. Visually strong enough to stand alone, but equally suited to a larger arrangement, the combination of wood and metal, makes Sway visually versatile. A match for both wood, stone or metal tables in any architectural setting.

ARCHI

Scandinavian design meets shaker. This trans-Atlantic concept leaps creative boundaries, combining notes of mid-century architecture and a minimalist aesthetic. At home in any contemporary or classic space, Archi cleverly combines two elemental materials - outdoor rope and Gloster's signature teak, to produce furniture that is as perfectly refined as it is striking.

180

Henrik Pedersen is no stranger to simple practicality. The respected Danish designer has cleverly emulated lines of traditional wooden furniture using powder coated aluminium and weatherproof sling to create both the stand out 180 Stacking Chair and the equally impressive 180 Stacking Lounge Chair. Followed with the equally attractive and no less practical matching Stacking Lounger, all are available in a variety of finishes. Henrik says "Travelling, exploring and being inspired by the moment are essential to being able to see beyond tomorrow."

Starting with a simple chair, the no-nonsense lines of 180 have the hallmark of a functional favourite. With clearly matching design cues, a comfy lounge chair and lounger compliment this popular aluminium and sling collection. The same delicate geometric lines and straight-forward stacking system is applied to all pieces.

WHAT IS A HOME WITHOUT A FEW UNIQUE ENHANCEMENTS TO ADD THAT FINAL TOUCH OF STYLE? SOLAR POWERED, WIRELESS OUTDOOR LIGHTING, HEAVY DUTY OUTDOOR RUGS, DUAL-FUNCTION STOOLS / SIDE TABLES AND A RUSTIC BASKET TO KEEP SMALL ITEMS SAFE AND AT HAND. COMBINING TACTILE MATERIALS WITH BEAUTIFULLY DETAILED FINISHES, GLOSTER ACCESSORIES ARE THE STYLISH WAY TO BRING YOUR OUTDOOR EXPERIENCE TO LIFE.

AMBIENT SOL

From daybreak to dusk, we are illuminated, comforted and inspired by our nearest star. An imposing disc, its appearance beyond the horizon is synonymous with positivity, growth and new beginnings. Its gleaming arc has inspired awe since time began and as its daily cycle nears completion, the world is united in appreciation of its beauty.

Like its solar namesake, Sol's presence heralds a wonderful day ahead. But in a narrative shift, as the day lengthens, Sol only shines brighter. A stylish and dramatic shade by day, a beautifully integrated LED light unit provides subtle illumination as evening approaches and the shadows fade into night.

AMBIENT COCOON

Enjoy outdoor living even after the sun goes down. Portable, remote controlled illumination with style, but without strings. Charge during the day and use at night to create the perfect mood.

Mimicking the perfect texture and symmetry of silk cocoons, these minimal and delicate looking lanterns are deceptively tough. Manufactured from modern plastics and combined with a striking solid teak handle of almost agricultural purity, these (solar LED) lights are as much about design as they are about illumination.

Asked about the design influences, designer Henrik Pedersen says "My path in design has led me through many parts of the world, many cultures... Light and warmth are always principal parts of the best social environments and the most modest of devices are often the most effective. Here I combine the worlds of simplicity and light to achieve beautiful background illumination".

AMBIENT

PEBBLE & NEST

The satin finish of their marbled, natural stone bases in Carbon or Fire pairs perfectly with the subtle texture of the resilient Meteor or Terracotta powder coated surface of their gently curving aluminium shades. But these characters hide a secret; with the tactile appearance and resilient constitution of their namesake Pebble, they really come to life as evening approaches.

Inspired by the precise designs of the weaver bird, these nest like suspended lanterns gently rotate and sway in the evening breeze. As the night draws in, the soft light shining through the detailed weave throws dancing shadows as the setting sun shimmers through the leaves.

AMBIENT MESH

Ambient Mesh by Henrik Pedersen hints to rustic origins. Here, the latticework of woven shades in a variety of sizes and colours, paints a subtle pattern in the dark - breaking up straight lines and creating a whole new set of outdoor decorations.

AMBIENT LINE

Elegant and precious. Using a mouth-blown, smoked glass cylinder with retro styled ribbed glass detailing and a cast metal frame, Ambient Line by Sebastian Herkner is a classical solution to portable outdoor lighting.

BLOCK

Crafted by bonding staves of solid, plantation teak together into a sturdy structure, Block features a hard-wearing and visually striking surface of end-grain squares.

COSO

Beautiful and tactile ceramic is the foundation of the Coso collection. The striking contrast between a rustic natural ceramic surface and a deep glaze with natural light reflections, becomes a playful contract, that can be emphasized further by the mixing of the three different, earthy colours. To complete the aesthetic, a natural, warm teak top is removable – making the table both functional and charming at the same time.

SEPAL

The forms of the natural world have always provided motivation for designers. The Sepal collection finds its inspiration in the giant floating water lilies that somehow look as though they were engineered by a human hand. With an upturned edge, these can form pads which gently intermingle and create their own pattern on the water. The tables use a ceramic top, edged in powder coated aluminium, which sits on a simple, but beautifully detailed, equilateral teak frame. This pure geometry makes the Sepal table extremely versatile and able to be paired with a variety of Gloster collections. It also allows the two sizes of table when used together to overlap and suggest in turn their own natural rhythm.

BLOW

Bring sophisticated glazes in subtle hues to your life outdoors. The soft lines and natural tones of these beautifully rounded ceramic bases combine perfectly with solid, natural teak table tops. Eye-catching and inspiring, these accent pieces beautifully reflect light across their soft, round surfaces and compliment any item in the Gloster range while adding character to any outdoor space.

BELLS

The inspiration is almost too obvious - two bells joined together to make up the shape of this iconic side table. The organic and fluid lines make an eye-catching addition to any outdoor area.

FIRE BOWL

Like moths to the light, we are all drawn towards a flickering flame. As the day draws to a close and the temperature drops, kick back and relax with friends and family - a fire bowl creating the perfect focal point to enjoy the setting sun whilst enjoying the warmth of good company.

GARDEN SHOWER

Outdoor living and cool, refreshing water go together and the new Deco Garden Shower offers exactly this. Free placement due to the teak base and a pleasant surface to put your feet on. Always nice to the touch, Teak is the perfect choice for this interaction, because it's never hot in the sun, and never cold in the shade. The teak base is combined with a clear and defined design for the frame- based on lower and upper rings, connected by one single straight line. To finish the design, a shower head in warm, polished brass colour is a subtle reference to the real solar disc above.

RUGS

Heavy duty outdoor rugs are available in either round or rectangular sizes and in several stylish colours of braid. These rugs are woven and are the perfect complement to provide that finishing touch to both dining and seating sets.

HALO

PARASOL

Although we all crave the sunlight, shade also has its own unique appeal. The Halo collection of parasols feature sturdy, aluminium frames and heavy-duty Sunbrella fabric canopies. Available as both standard push-up and practical cantilever versions, with Halo, somewhere to cool off and get away from the midday sun is never far away.

FABRICS

No matter which type of fabric you choose for your cushions, Gloster only use the best outdoor fabrics that are manufactured using 100% solution dyed acrylic yarns for maximum resistance to the fading and degrading effects of sunlight. All fabrics are finished with a water-repellent

coating on the surface to reduce water absorbency. If the fabric does become wet from prolonged exposure, they will come to no harm, and the fabrics will dry out naturally. Gloster cushions are offered with fabrics that fall into three distinct groups:

OUTDOOR PERFORMANCE

Offered in a wide selection of stylish and sophisticated fabrics with a soft hand, our Outdoor Performance cushions use the softest, most luxurious fillings that give

the feel of the most comfortable indoor furniture. A highly water-resistant barrier beneath the outer fabric cover protects the fillings, keeping drying times to a minimum.

MAXIMUM WATER RESISTANCE

For maximum water resistance, a selection of Sunbrella® Rain cover fabrics features a water-resistant coating that is applied to the back face, helping prevent water travelling beyond the surface of the fabric. Although not offering quite the same soft hand as our other fabrics, these water-resistant fabrics are very practical and quick drying. The fillings inside the cushion are engineered using open cell materials to allow for maximum air circulation, helping to speed up the drying process even further.

MAXIMUM SOFT TOUCH

Combining with all the benefits present in Outdoor Performance cushions, Gloster offer this range of exclusive, knitted outdoor fabrics, the first to be produced using 100% solution dyed acrylic yarns. These knitted fabrics offer the ultimate in terms of softness, giving a sumptuous cosy feel, while the inherent stretch allows for the perfect fit to even the most demanding of cushion shapes. The Wave fabrics feature a unique, 3D knitted structure giving levels of texture and softness unparalleled in outdoor fabrics.
