Jati Kebon's vision

Luxury outdoor living, for everyone

More than 30 years ago, Jati Kebon started with a vision: to transform outdoor spaces into places of true comfort and relaxation. Today, that same vision continues to define everything we create.

At Jati Kebon, we design luxury outdoor furniture that turns every terrace, garden and poolside into an oasis of style and elegance. From sunrise to starlight, our collections inspire moments of connection, relaxation and joy.

We believe outdoor living should be more than an afterthought. It should feel like a natural extension of the home, with class and freedom flowing effortlessly from indoors to outdoors. It is about blurring the boundaries between home and nature, creating inviting spaces to relax, get inspired and come together.

We invite you to take the world in and make your surroundings an essential part of your lifestyle. Find a place to unwind amid the sights, sounds and sensations of the outdoors while still enjoying the comfort of home. A place where opposites meet and contrasts find harmony, shaped through thoughtful design.

Jati Kebon is about more than furniture. It is about creating experiences that bring people together. It is about moments shared with family and friends, about sunlight and laughter in the afternoon, and evenings that feel calm, connected and beautifully alive.

Every piece is crafted with care and dedication to add meaning to both ordinary and extraordinary moments, making luxury outdoor living accessible for everyone, in every setting.

Santiago Sevillano

"Furniture should blend with nature, not compete against it. With Phil, we wanted to create a collection that respects its environment and embraces it with grace."

Santiago Sevillano, an internationally renowned Spanish designer based in Valencia, has built his reputation on a design language defined by organic forms, exotic spirit and bold innovation. With a career spanning decades and collaborations with leading global brands, Sevillano has established himself as one of Spain's most distinctive voices in contemporary design. His philosophy is rooted in the belief that furniture should be more than functional objects. It should evoke emotion, flow with its surroundings and enrich everyday life.

It is this vision that made the collaboration between Jati Kebon and Santiago Sevillano a natural fit. Together, we share a passion for creating luxury outdoor furniture that is not only seen but felt. Design that delivers experiences, not just products. For Jati Kebon, partnering with Sevillano means expanding our creative horizon and embracing a design approach that unites innovation, craftsmanship and authenticity.

The Phil Collection

From this collaboration emerged the Phil Collection, a series of outdoor pieces that reflect Sevillano's unmistakable touch. With its rounded silhouettes, fluid lines and refined detailing, Phil captures his drive to create furniture that is emotional yet functional, bold yet timeless. Inspired by the warm, vibrant colors of sunsets in the Philippines, the collection introduces expressive tones that enrich outdoor spaces with character and sophistication.

The Phil Collection is more than a collaboration: it is the embodiment of Sevillano's philosophy brought to life by Jati Kebon's commitment to luxury outdoor living, resulting in pieces that are stylish, durable and deeply authentic.

“Every line in the collection is designed to support that sense of comfort and connection.”

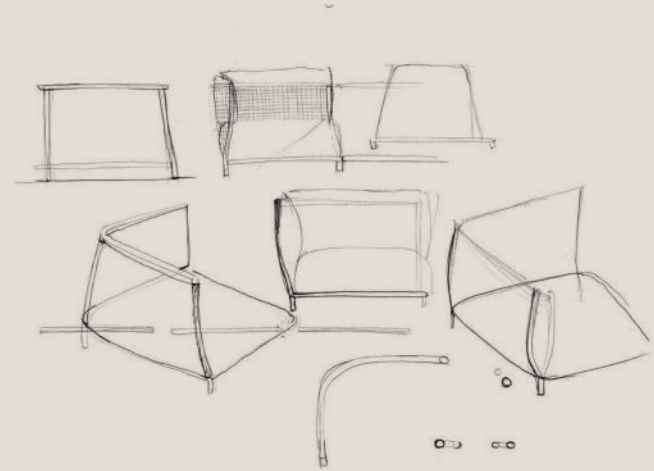

La Mamba Studio

"Design is not just what we create, but how we connect."

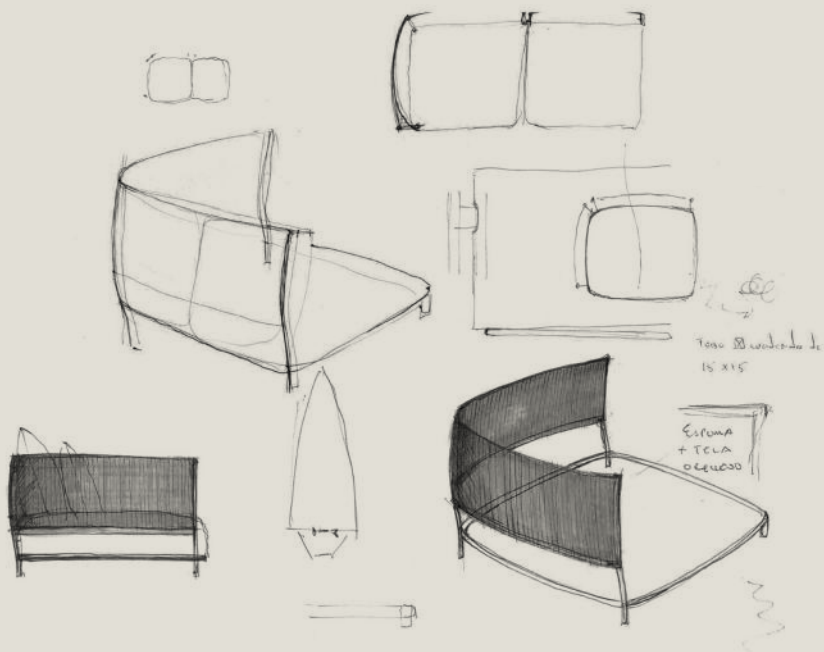

Based in Valencia, La Mamba Studio is a product design atelier specialized in furniture, lighting, and objects. Their approach is holistic and deeply human, defining the soul of each design and molding ideas into meaningful experiences. From chairs and tables to sofas and lighting, they always seek to harmonize aesthetics, functionality, and human interaction. Their philosophy is showcased in the Cala collection, transforming our perception and experience of our surroundings.

The Cala Collection

Cala is a distinguished collection born from a poetic fusion of skillful and modern design, redefining elegance and sophistication. Inspired by the intricate art of rope weaving, La Mamba Studio sought to soften the industrial essence of aluminum, bringing style and rich texture to each piece. This collection with its modular sofa elements and dining set is all about creating inviting and timeless spaces that welcome you to unwind, transforming any outdoor setting into comfortable sanctuaries.

Made Studio

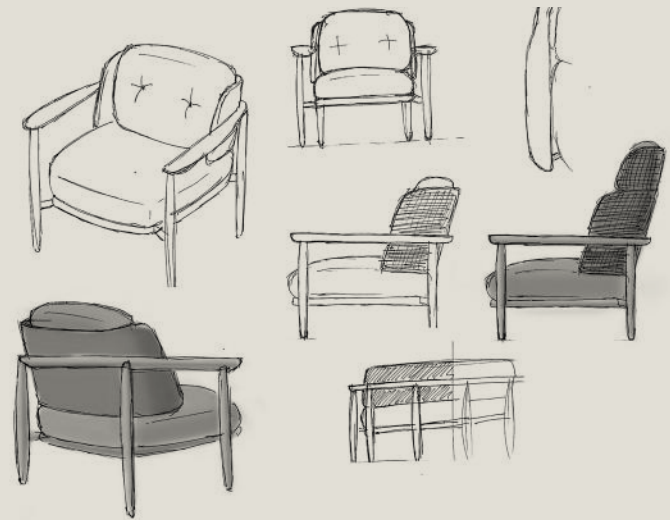

"Balancing the rational and emotional."

Made Studio was founded in 2017 by Borja García and Laura Ros, emerging from their shared professional journey in industrial design and architecture. Their team balances function with emotion, crafting products and spaces that enhance daily life. With over a decade of experience, the founders of Made Studio present a manifesto of precision, from concept to detail. They take pride in transforming ordinary moments into extraordinary experiences through thoughtful design, ensuring that their creations not only serve but inspire.

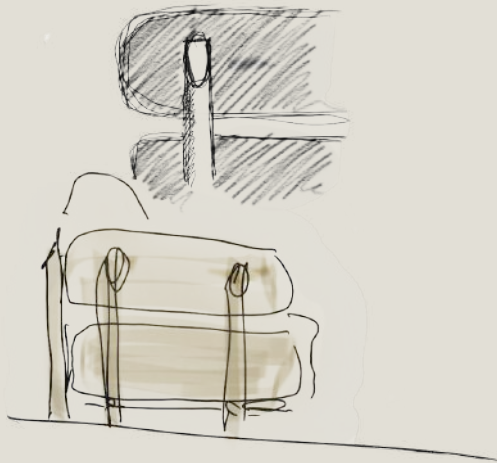

The Boho Collection

Inspired by the artisan craftsmanship of curved hand-woven panels with intricate rope techniques and the elemental shapes of 1970s design, the Boho collection embodies Made Studio's philosophy of balancing rational and emotional aesthetics. Each piece is refined yet comfortable, reflecting Made Studio's mindset that design should support everyday experiences. With careful attention to every detail, the collection blends beauty and a natural touch, adding warmth, sophistication, and a sense of connection to any outdoor setting.

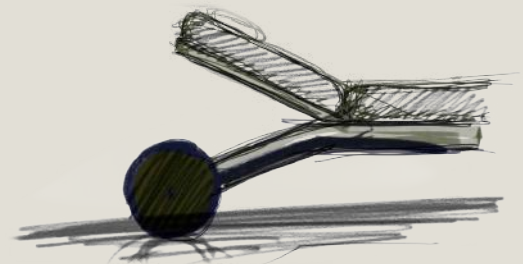

The Polo Collection

Designed to evoke comfort and serenity, Polo draws its inspiration from the sculptural simplicity of traditional ice cream sticks. The idea for Polo was born from our desire to create a design that embodies slow living. We envisioned long, sun-drenched days spent in balance: listening to music, reading, sipping coffee and reconnecting with nature. The side panels became the signature element of the collection, embracing generous cushions that invite you to relax. The tubular frame adds a sense of lightness and honesty, resulting in a design that feels both essential and welcoming.

The Dolce Sunlounger

With Dolce, we set out to capture the essence of timeless design: rigour, proportion and balance. These values are expressed through soft, honest forms that invite serenity and sophistication. The journey began with a search for a gentle, fluid profile. A subtle tilt in the backrest introduces grace and ease, transforming solid geometry into something light and elegant. Generous proportions offer a broad, welcoming seat, a place of comfort and repose. The interplay between structure and softness gives Dolce its distinctive voice.

Povl Eskildsen

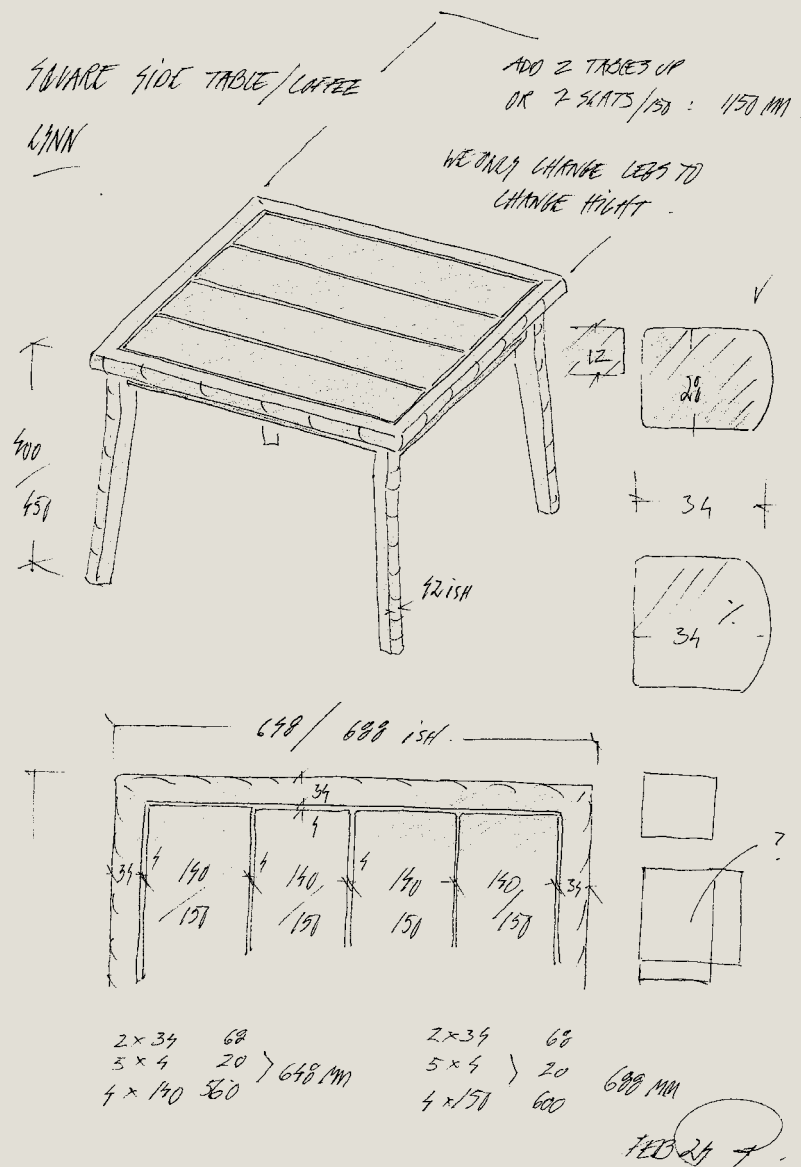

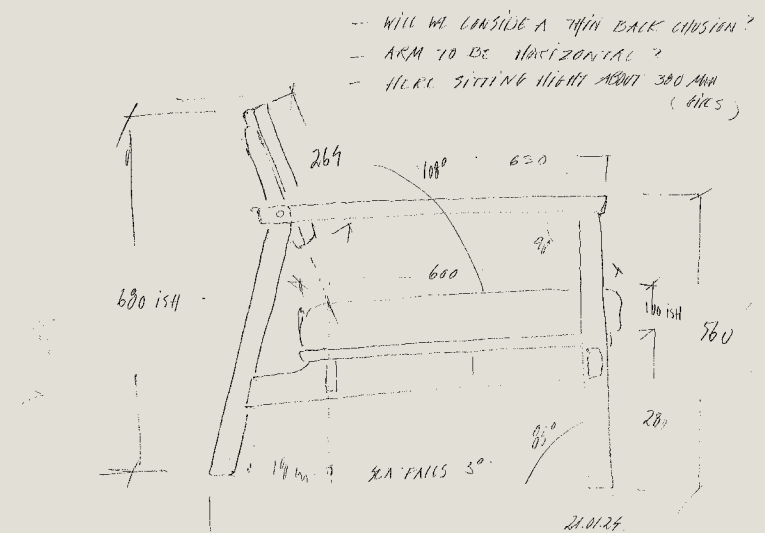

"Design is about more than
just form and materials."

Povl B. Eskildsen, a distinguished Danish designer, perceives design as a way of understanding how people live and interact with furniture in their daily lives. His architectural background and his family's teak furniture legacy is beautifully reflected in the Lynn collection, where he masterfully merges timeless Scandinavian craftsmanship with contemporary design. His furniture embodies minimalist elegance, crafted with meticulous precision to elevate outdoor living spaces with sophisticated, adaptable pieces.

The Lynn Collection

"With Lynn, we've created a collection that's as luxurious as it is eco-conscious."

Escape the ordinary with Povl Eskildsen's Lynn collection, where design embraces outdoor living. A testament to meticulous Scandinavian artistry and sustainable vision, these pieces draw inspiration from 1970s Danish classics. Blending clean, elegant lines with nature's warmth, each design tells a story of precision. Every detail, from the seamless finger joints to the hidden end grain, reveals a commitment to timeless beauty that gracefully weathers every season.

JK Design Studio

"We invite you to take your surroundings in and extend your home outdoors."

At *Jati Kebon*, we pride ourselves on our strong commitment to creative and functional design. Our in-house design and development teams in Belgium and Asia work closely with well-known designers, forming a tight-knit network that drives innovation while staying aligned with the latest trends.

For 2026, we introduce three new colors inspired by nature and contemporary design: warm rust, vibrant green and sophisticated bronze. These tones add depth, warmth and character to every outdoor space.

Teak Wood

Teak is a particular suitable species of wood for outdoor furniture, which will easily fit into any space – modern, rustic, oriental ...

The *Jati Kebon* Signature range uses only high-quality, carefully selected Indonesian teak wood. It is unmatched in quality and versatility and adds a unique character to your outdoor furniture. The fine A-grade teak in its natural color is durable for outdoor use and weathers to a beautiful silvery grey patina.

ECO SAFE PRODUCTS

Water based Non harmful
Non-toxic 100% biodegradable

What tools to use?

In general: avoid harsh treatments. Avoid using any abrasive products or tools on materials like aluminum, ceramic and synthetic materials, as these can cause scratches. Do not powder-wash or use chlorine bleach, oils, and avoid abrasive cleansers. Test new solutions on a hidden area. After cleaning, use the application cloths to apply an outdoor furniture protector.

Teak

Cleaner & protector

If teak remains untreated, this silver-grey patina deteriorates to a dark-grey and greenish. A transparent protector makes the wood water- & dirtrepellent and helps to prevent stains while keeping the natural look. Apply a non-hazardous teak cleaner to clean and restore discolored, dark grey teak and hardwood. Use the appropriate tools and avoid using a hard brush to clean your teak furniture.

Fabrics & ropes

Cleaner & protector

The best and simplest way to preserve the beauty, comfort and performance of fabrics is by brushing off any dirt before it gets entrenched, as well as by cleaning up any spills or stains with soap and water shortly after they occur, when they are easiest to remove. We recommend our *Fabrics & Rope Cleaner*. *Jati Kebon* furniture's cushion covers and fillings are made to dry easily and properly with improved water draining, making them develop less mildew and molds. You can keep your fabrics looking better for longer when you regularly give them a treatment with a *Fabric Protector*.

Multisurface

Cleaner & protector

Jati Kebon aluminum furniture is protected by a high-quality, waterrepellent powder coating. The resulting finish is knock and scratch resistant, impregnable to moisture, highly resistant to corrosion and easy to clean. Make sure to handle the furniture with care, avoiding scratches and dents that could damage the coating, making your furniture more vulnerable to the elements. Also watch out for corrosive liquids like sunscreen and cosmetics. It's recommended to further improve the resistance by applying an extra layer of protection with the *Multisurface Protector*.
