

Cane-line®

LIFE MADE COMFORTABLE

A festive feeling

With the 2026 catalogue, we invite you into our world where design and lifestyle merge, where aesthetics and comfort create the foundation for comfortable living. Our outdoor and indoor collections are designed to inspire memorable moments of presence, togetherness and ease.

The theme for our 2026 news is “A festive feeling”, which comes alive through playful colours, soft curves, organic shapes, glazed ceramics, and textured fabrics. It is a celebration of joy, creativity, and those moments where everyday life transforms into something extraordinary - whether shared with others or enjoyed alone.

The Cane-line DNA - *Life made comfortable* - is present in every detail. Each design is created with the greatest care for our environment and the well-being of people. We believe that good design is responsible design with longevity.

We hope our 2026 collection brings you a festive feeling and inspires new settings for life's most memorable moments.

Brian Djernes | CEO, Cane-line A/S

Cane-line news

Find inspiration for your living areas in our Cane-line 2026 collection. The collection embraces life made comfortable.

Our new designs invite for personal style and expression with focus on design, quality, comfort, and low maintenance.

RESPON- SIBILITY

Because we care

Cane-line believes that responsibility goes beyond the design and production of furniture. We are committed to a healthy environmental policy and an ongoing focus on minimizing our societal and environmental impact.

Responsibility and environmental awareness are part of Cane-line's values, and therefore implemented as a natural part of our company for many years. As we acquire more knowledge and awareness on our environmental footprint, we continue to work and improve all aspects of our production in a more responsible direction.

Each product in our assortment is produced with care and respect. Responsibility is embedded in every stage of our company, from design process, choice of material and production process to the end stage after many years of use. We believe that great design is responsible design.

The ISO14001 certification, SMETA audition, and our engagement in the Sustainable Development Goals express our dedication.

Scan QR or read more
about our principles on
cane-line.com

Cane-line is certified by the international certification DNV (Det Norske Veritas): ISO14001:2015.

Cane-line teak is approved and forested under the SVLK – Sistem Verifikasi Legalitas Kayu (Indonesia's timber legality assurance system) certification system.

As a manufacturer of furniture, we believe our greatest impact comes from addressing UN Sustainable Development goals no. 8 and 12. To us, the SDGs make us even more motivated to work towards a more responsible business.

All products with the QuickDry & Airflow system symbol have cushions with QuickDryFoam. Read more on page 251.

Cane-line is audited by DNV-GL (Det Norske Veritas): SMETA (Sedex Members Ethical Trade Audit). SMETA is the world's most commonly used ethical audit format.

Meet our

DESIGNERS

Foersom & Hiort-Lorenzen MDD

Johannes Foersom and Peter Hiort-Lorenzen MDD are two of Scandinavia's most renowned and successful furniture designers. Their goal is to create long-lasting value, and to stimulate a healthy development for people and their surroundings. They strive towards the highest quality in co-operation, process and product, and believe that knowledge and innovation are fundamental. The impressive use of exibility makes the furniture appear as small architectonic wonders.

Welling/Ludvik

The design duo Welling/Ludvik, Hee Welling and Gudmundur Ludvik, are contributing to the renewal of environmentally-friendly design centered around personal experience. They are defined by a pure aesthetic, stripping away excess and letting each detail serve a functional purpose. They aim to achieve the best possible solution as seen from a number of perspectives. Comfort, materials, construction, pricing and environment are all defining factors in their approach to design.

Strand+Hvass

Christina Strand (MDD) and Niels Hvass (MAA) believe that design itself is a strategy that can improve the conditions of human life, the environment and personal experiences. Additionally, they believe that design can be used as a tool to develop the competitive power and economic growth of society. Their design is user-centered and deeply rooted in the Scandinavian culture. Simplicity and well-balanced lines are the cornerstones of their work.

Søren Rose Studio

Søren Rose Studio is well-known for his minimalistic, Scandinavian style with strings into a modern and cosmopolitan expression. The location of the design studio in New York is a source of inspiration to a raw design style that goes aesthetically well in line with the Scandinavian design tradition. The combination has been refined by the design studio through its many years of existence on the international design scene.

byKATO

ByKATO, Karl Rüdiger Rossell and Tonny Glismand, are dedicated to creating contemporary, highly usable products for everyday living. They aim to bridge the gap between commercial, industrial design and high-quality craftsmanship by using honest and justifiable materials and paying careful attention to even the smallest detail. Their mantra is to design products, which they would like to have themselves so they always take starting point in their own needs. In this way it all comes from the heart and the required enthusiasm is always present.

Cane-line Design

At Cane-line the core value for good design is comfort and we believe in the optimal mix between comfort, aesthetics and functionality. Our internal design team is working with this in top of mind to create an optimal collection with unique products adding value to life and making life more comfortable. Cane-line design team is also working closely with our external designers.

LOUNGE

Relax, unwind & let go

Your outdoor lounge is your comfortable sanctuary under the open sky. Enjoy the calming space alone or together with your loved ones.

GEM

BY FOERSOM & HIORT-LORENZEN MDD

Gem by Foersom & Hiort-Lorenzen MDD brings a soft expression to modern lounging. Defined by soft shapes, 360 degrees movement, and a strong sense of comfort, the series captures a refined balance between contemporary design and functional elegance. Gem creates a natural focal point for relaxation and socialising — inviting to slow down, gather, and enjoy wonderful moments outdoors.

AL DENTE

BY CANE-LINE DESIGN

Al Dente by Cane-line Design is a playful and refined series, where visual lightness meets strong structural design. With slim, spaghetti-like strands delicately woven, the series creates both texture and transparency – a nod to classic craftsmanship, reimagined with a contemporary twist. The contrast between the refined string weave and the solid, powder-coated aluminium brings a dynamic balance between softness and strength. Perfect for outdoor spaces, the Al Dente series is as inviting as it is expressive – a celebration of simplicity, comfort, and character in every line.

BLISS

BY FOERSOM & HIORT-LORENZEN MDD

The Bliss series by Foersom & Hiort-Lorenzen MDD is a celebration of minimalist design. This series, made from durable powder-coated aluminium, offers a modern and urban design that flawlessly integrates into outdoor as well as indoor spaces. Its low-maintenance and lightweight construction make Bliss easy to move, adjust and style, while also ensuring that it stays beautiful and timeless for many years. The selection of colours makes it possible to enhance any outdoor space, from cafés and restaurants to terraces and balconies.

Bliss – designed for togetherness and enjoyment.

STICKS

BY CANE-LINE DESIGN

Inspired by a stick construction, the Sticks series showcases an elegant and unique look.

Sticks is an inclusive and versatile series, making it possible to create a complete look in your outdoor space. With either a rustic, natural style or a more modern, minimalistic expression, Sticks inspires you to rethink your outdoor haven.

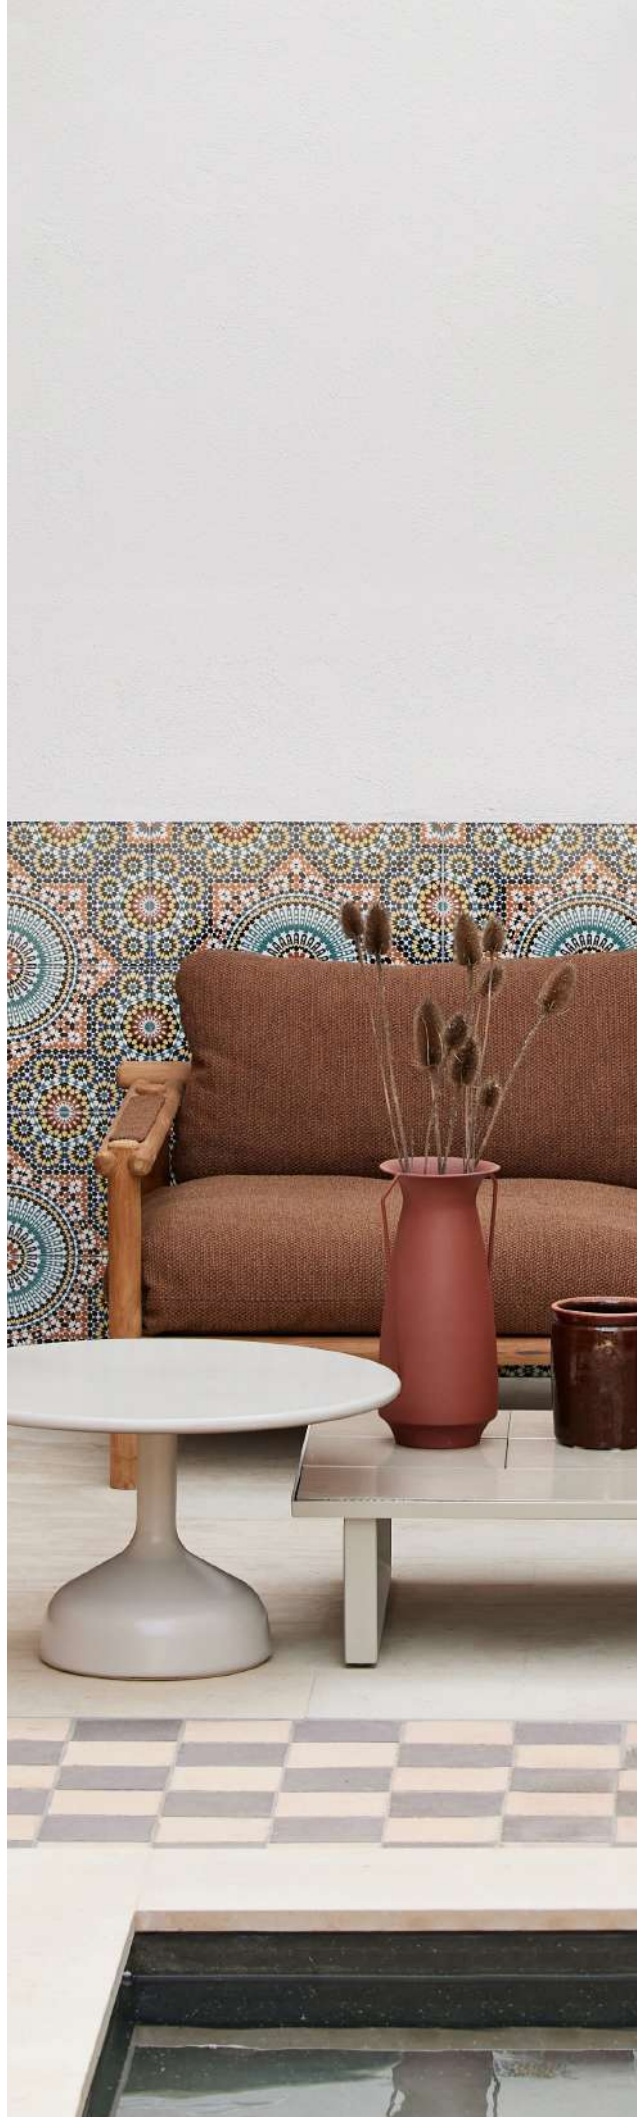

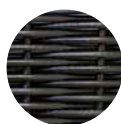

KINGSTON

BY FOERSOM & HIORT-LORENZEN MDD

Kingston lounge combines the best in modern design, comfort and functionality of outdoor furniture. The production of the luxurious Kingston series involves great precision and craftsmanship. The result is an elegant, unique and obvious choice for comfortable and modern furniture for gardens and patios around the world.

GRAPHITE

SAND

KINGSTON SUNCHAIR, CANE-LINE WEAVE

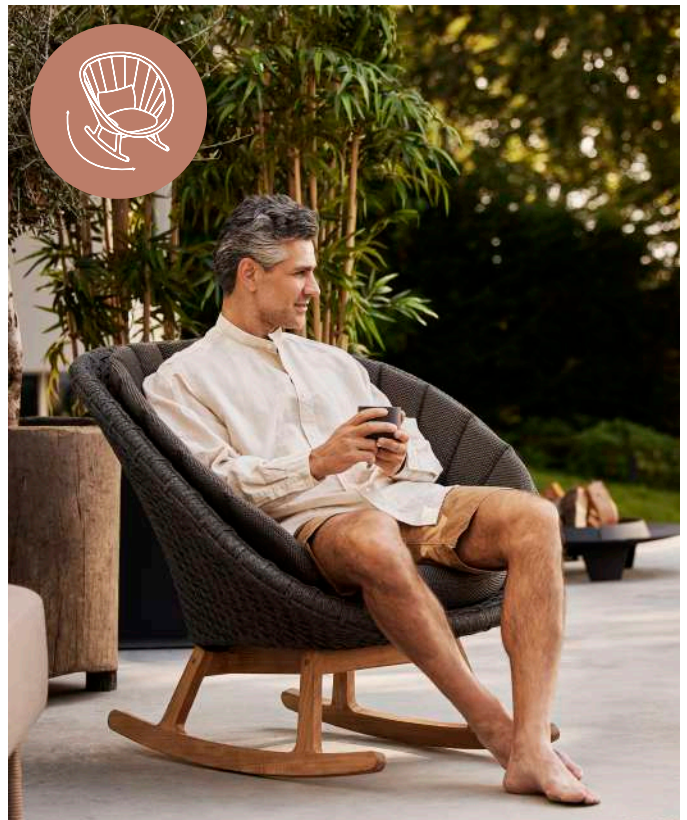

PEACOCK

BY FOERSOM & HIORT-LORENZEN MDD

The Peacock series offers a visually appealing design with strong focus on comfort. Its distinctive and unique design adds an artistic touch to any space, while its temperature and UV-resistant design ensure enduring beauty with sturdiness. Settle in and enjoy true comfort with Peacock.

MELLOW

BY CANE-LINE DESIGN

The Mellow series by Cane-line Design is a sophisticated and elegant series that combines curvy, flowing lines with practical functionality. Its low seating and plush cushions create a cosy, inviting atmosphere, while the sturdy aluminium frame ensures long-lasting durability. Each piece is designed for flexibility, allowing you to customize and expand your lounge setup effortlessly. With weather-resistant upholstery and the QuickDry and Airflow system, the Mellow series is perfect for outdoor lounging.

COAST

BY CANE-LINE DESIGN

Coast is a comfortable and inviting lounge series for outdoor spaces, designed by Cane-line Design. Coast offers a perfect blend of traditional craftsmanship and classic elegance, with its handwoven wicker pattern and soft, curvy lines. The series is designed with high comfort and durability in mind. Coast creates an invitation for relaxation and unwinding, transforming the outdoor area into a serene oasis, with beautiful craftsmanship and timeless design.

HIVE

BY FOERSOM & HIORT-LORENZEN MDD

The Hive series offers a sculptural silhouette, inspired by the beehive where construction is key. Hive offers a unique and embracing design, perfect for outdoor relaxation. The series is designed with a Japandi look combining Scandinavian functionality with Japanese rustic minimalism and simplicity.

Dining al fresco

Summer is all about being outside and enjoying good times with friends and family. Dining al fresco is the ideal way to enjoy a delicious dinner together.

MAJESTIC

BY FOERSOM & HIORT-LORENZEN MDD

Rooted in the tradition of Danish design, the Majestic series is defined by clean, modern lines and a conical form softened by the natural warmth of teak. With its calm, architectural expression, Majestic carries a timeless character that complements both classic and contemporary settings. The series is designed with inviting elegance and a high level of comfort in mind - creating a calm yet confident expression in any setting.

BREEZE

BY STRAND+HVAASS

Embrace modern minimalism with the Breeze series, known for its distinctive elegance and lightness. Designed by Strand+Hvass, each design has an aesthetic design expression, that beautifully blends into any outdoor space. Breeze embodies the essence of sculptural transparency, evoking a gentle summer wind.

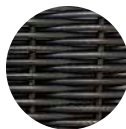

Breeze is made with Cane-line Weave® - a fibre made from highly durable, solution-dyed polyethylene, which is ideal for outdoor use, as it withstands moisture and large variations in temperature. The durable material is UV-resistant and requires minimal maintenance. The material will retain its colour and shape for many years.

COVERS

Cane-line outdoor furniture is weather resistant, but changing weather and falling leaves set their marks. Using protective covers save time on cleaning, keeping the furniture looking sharp and prolong their life span. The cover comes in a handy storage bag. Make sure not to cover wet furniture. Dry before covering.

Cane-line covers are made of a strong solution dyed polyester fabric, which protects the furniture during the winter. It is advisable to check covers after heavy falls of rain/snow and remove any water collected on top to ensure that the furniture remains properly covered. For further information please visit www.cane-line.com/collections/outdoor-furniture-covers.

QUICKDRY & AIRFLOW SYSTEM

Cane-line QuickDry & Airflow system offers cushions with our special QuickDryFoam. The unique cushion composition with QuickDryFoam ensures a quick drainage after heavy rain and an effective air circulation in humid weather conditions. The benefit is dry cushions approximately one hour after downpour and no risk of mould building inside the cushions due to the constant air circulation.

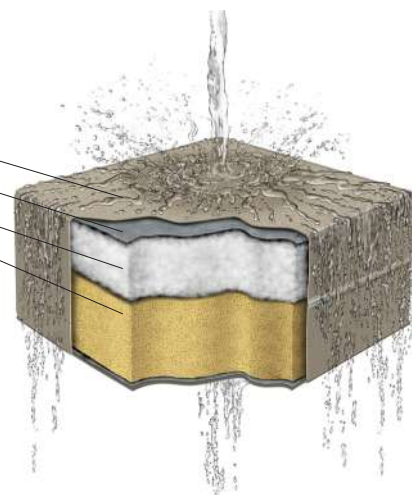

We recommend to store cushions indoors in a ventilated room or in one of our cushion boxes during winter season or when not in use for a longer period. For more information regarding maintenance and cleaning see cane-line.com.

All series with the QuickDry & Airflow system logo include QuickDryFoam. All other cushions are delivered with our high quality Cane-line foam (cold foam).

CUSHION COMPOSITION

Outer cover/fabric
Inner cover/rain cover
Padding
QuickDryFoam

90% of rainwater is repelled, whereas only 10% passes through the cushion

- Approximately one hour after rainshowers your cushions are dry, and you can sit comfortable in your furniture again.
- After a downpour, place the cushions in an upright position so the water can drain.

Teak is a tropical wood material with a beautiful golden brown colour. However, the colour will gain a silver-grey patina over time if not treated.

If you wish to preserve the original golden-brown colour, use Cane-line Teak Protector. A protector that preserves the nice and warm golden-brown colour.

TEAK CARE

Teak Cleaner

A Cleaner & Brightener in one. To clean and restore discoloured and dark grey teak, this water-based formula is not only a high concentration cleaner, but also a brightener, which brings back the original colour of new teak.

Classified as non-hazardous.

COVERAGE:

m²: 10 - 12
Sq. ft.: 110 - 130
Chairs: 10 - 12
Tables (240 cm. / 80"): 2 or 3
Sofas / Benches (240 cm. / 80"): 3 or 4
Content: 1000 ml.

Teak Protector - Honey brown

Maintain the original honey brown colour for a longer time. Teak protector maintains the golden brown colour for a long time:

- Easy to apply
- Up to 4 times longer than teak-oil
- Up to twice as long as teak sealer.

This protector gives teak a nicer, more natural colour after application

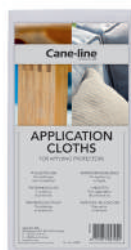

COVERAGE:

m²: 8 - 10
Sq. ft.: 90 - 110
Chairs: 8 - 10
Tables (240 cm. / 80"): 2
Sofas / Benches (240 cm. / 80"): 3
Content: 1000 ml.

Green Scrubbing Pads & Padholder

For cleaning teakwood.

White Application Cloths

For applying protectors.

INDOOR

BLOOM

BY CANE-LINE DESIGN

The Bloom series by Cane-line Design is a masterful reimagination of contemporary indoor luxury. The allure of Bloom lies in its graceful simplicity, yet every element is intricately considered to offer both visual appeal and ultimate comfort. Bloom is a statement piece that adds elegance, transforming your living space into a sanctuary of style and relaxation.

PACE

Partners worldwide

At Cane-line, we experience that accommodating and flexible furniture arrangements are a must for many of our international project partners. Our partners have high demands for quality, comfort and aesthetics. We match these needs by providing customised solutions.

Cane-line furniture is designed for heavy use over longer periods of time, yet still only require minimal of maintenance.

Our designs live up to the brand identity of our project partners and our corporate conduct and operations match international expectations about Corporate Social Responsibility (CSR).

We work with a variety of companies in the public and private sector, institutions, exclusive hotels, cruise lines and resorts.

PROJECTS

HOTEL CATALONIA, SPAIN ▲

▲ Billingeus

Skövde, Sweden

Perched high on Billingen mountain lies Billingeus, a family-owned hotel where history, nature, and design come together to create something truly timeless.

Al Qasr Hotel Jumeirah ▶

Dubai

Palatial splendour inspired by 1,001 Arabian Nights, chic French Mediterranean restaurant oozing with Cote d'Azurian glamour.

UPSTALSBOOM HOTEL, GERMANY ▲

▲ Hotel Scheelsminde

Aalborg, Denmark

Hotel Scheelsminde is a modernized manor house that blends modern style with historical heritage into a timeless and exclusive universe.

▲ Habitas AlUla

AlUla, Saudi Arabia

Habitas AlUla is a unique hotel that offers guests a one-of-a-kind experience in the heart of the Arabian desert.

▼ Taj Rishikesh resort

Uttarakhand, India

Blissful is Taj Rishikesh Resort and Spa, the 5 Star deluxe resort which sits by the banks of the majestic Ganga and is placed right in the foothills of the Himalayas.

▼ Josefina

Stockholm, Sweden

With its modern charm and vibrant energy, Josefina stands out as the destination for outdoor dining and lounging.

THE HOXTON, SPAIN ▲

VILLA COPENHAGEN, DENMARK ▼

Outdoor fabrics

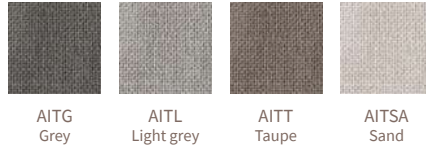

Cane-line Natté

- 100% solution dyed acrylic fabric
- Water and stain repellent
- Colour resistant to UV rays
- If removable covers washable at 30 °C (machine wash)
- Excellent for both indoor and outdoor use

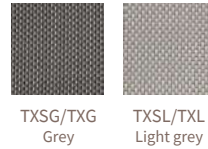

Cane-line AirTouch

- 100% solution dyed acrylic fabric
- Water and stain repellent
- Colour resistant to UV rays
- If removable covers washable at 30 °C (machine wash)
- Excellent for both indoor and outdoor use

Cane-line Tex®

- 100% coated polyester sling fabric
- Water and stain repellent
- Colour resistant to UV rays
- If removable covers washable at 30 °C (machine wash)
- Excellent for both indoor and outdoor use

Cane-line Stripe

- 100% Polypropylene
- Colour resistant to UV rays
- Removable covers on the scatter cushions
- If removable covers washable at 30 °C (machine wash)
- Excellent for both indoor and outdoor use

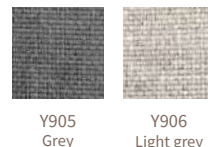

Cane-line Free

- 100% Polypropylene
- Colour resistant to UV rays
- Removable covers on the scatter cushions
- If removable covers washable at 30 °C (machine wash)
- Excellent for both indoor and outdoor use

Cane-line Virtue

- 100% solution dyed polyester fabric
- Water and stain repellent
- Colour resistant to UV rays
- If removable covers washable at 30 °C (machine wash)
- Excellent for both indoor and outdoor use

Cane-line Link

- 100% Polypropylene
- Colour resistant to UV rays
- Removable covers on the scatter cushions
- If removable covers washable at 30 °C (machine wash)
- Excellent for both indoor and outdoor use

Cane-line Wove

- 100% Polypropylene
- Colour resistant to UV rays
- Removable covers on the scatter cushions
- If removable covers washable at 30 °C (machine wash)
- Excellent for both indoor and outdoor use

Materials

Cane-line Natté

Cane-line Natté is a 100% solution dyed acrylic fabric. Cane-line Natté is a unique material produced by Sunbrella for Cane-line. Cane-line Natté combines the strength of normal all weather fabrics with the comfortable softness of the traditional Sunbrella fabrics, resulting in a soft yet durable fabric. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

Cane-line Soft Rope

Cane-line Soft Rope is a woven Selected PP fibre. The material has a soft surface that acts like a fabric. Avoid pulling/pushing the material too hard as this may cause it to lose its shape. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

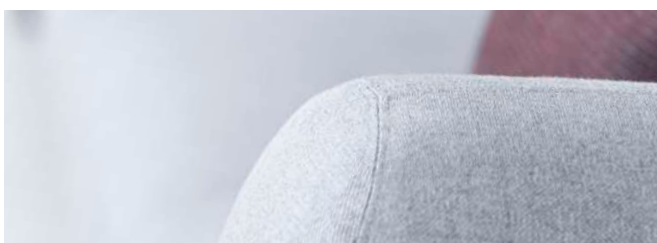

Cane-line Weave®

Cane-line Weave® is a fibre made from highly durable, solution dyed polyethylene (PE), which is ideal for outdoor use because it withstands moisture and large variations in temperature. Both the structure of the fibre and the weave ensure elasticity and optimal sitting comfort. The durable material is UV-resistant and requires minimal maintenance. Cane-line Weave® has been developed to withstand climate conditions all over the world and the material will retain its colour and shape for many years. It can vary slightly in colour, creating a nice contrast in the surface of the weave. This gives the furniture a unique, natural and exclusive look.

Selected PP

100% polypropylene (PP) and UV-resistant. In case of food or drink stains, wash the spot immediately with warm soapy water and allow the pillow to dry in an upright position. For more thorough cleaning, all pillow covers can be removed and machine-washed at 30°C. Make sure the cover is completely dry before putting it back on the pillow.

Cane-line AirTouch

Cane-line AirTouch fabric combines the strength of Cane-line SoftTouch with the softness of Cane-line Natté produced by Sunbrella. It is a 100% solution-dyed acrylic fabric. Cushions made from Cane-line AirTouch are produced with a QuickDryFoam® core, ensuring maximum drainage and air circulation. This allows the cushions to dry faster after having been exposed to rain and moisture. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushion.

Cane-line Virtue

Cane-line Virtue is a 100% solution dyed acrylic fabric. Which is UV-resistant. In case of food or drink stains, wash the spot immediately with warm soapy water and allow the pillow to dry in an upright position. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

Glass

All glass tops are made of toughened glass. The glass has been through a process, where it has been heated to approx. 650 degrees and then cooled. This curing of the glass makes it up to 5 times stronger than ordinary glass and less prone to cracking and breaking.

Cane-line Tex®

Cane-line Tex® is a coated polyester material that is ideal for outdoor use and requires minimal maintenance. Cushions made from Cane-line Tex® come with a QuickDryFoam® core, ensuring maximum drainage and air circulation. This allows the cushions to dry faster after having been exposed to rain and moisture. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushion.

Cane-line Teak

Cane-line teak is approved and forested under the SVLK – Sistem Verifikasi Legalitas Kayu (Indonesia's timber legality assurance system) certification system. Teak is a hardwood that is ideal for outdoor use due to its high oil content. Our teak material is grade A, meaning it is the best quality and characterised by the close grain and the warm honey golden-brown colour. The wood acquires a silver-grey patina over time. If you wish to retain the original golden-brown colour, we recommend treating teak furniture with a recommended teak protector. See Cane-line care products.

Polypropylene

Polypropylene (PP) is a lightweight, yet strong plastic. It is heat-resistant, ensuring durability for pieces exposed to sunlight or warmth. PP is resistant to many chemicals, making it ideal for home use where it may encounter cleaning products. Its water-repellent nature also suits outdoor furniture. PP's ability to maintain its shape after bending means that chairs and tables remain stable over time. Furthermore, it's easily recyclable, making it an environmentally conscious choice for sustainable design.

Powder coated hot dip galvanized steel

All our steel furniture is hot-dip galvanized, which by far is the best corrosion protection of steel. Unlike only using paint which adheres to the surface of the steel, the galvanizing creates a hard-wearing and resistant surface with extraordinarily long life and requires only a minimum of maintenance. All our galvanized steel is afterwards powder coated for additional protection and aesthetic purposes.

Stainless Steel

Stainless steel is extremely weatherproof. However, tarnishing can occur in the form of flash rust. This can be removed by using a stainless steel cleaner. Regular cleaning with soapy water helps to protect the surface of the stainless steel and this minimises the effects of chlorine, etc. It is also advisable to wipe the frame with acid-free oil at least twice yearly to minimise tarnishing.

Powder coated aluminium

All our aluminium furniture is powder coated. Powder coating serves as a protective layer that is tinted in a variety of colours. Aluminium furniture is ideal for outdoor as well as indoor use.

Lava stone

Artistic Italian lava stones for table tops. Handmade with double glazing. Each tile and table top is unique and no two look alike. The lava stone is a natural material and small imperfections, such as colour and spots are to be expected.

Ceramic

The ceramic tops are made of porcelain, which is an extremely strong material that can be left outdoors all year round. They are made using natural materials, so there may be small variations in colours between the tops.

Cast Iron

Cast iron from Cane-line is composed of alloy of iron, carbon and silicon, which together provide a material particularly suitable for products that require great strength and heat resistance. Continuous maintenance is important, as otherwise over time, you will see rust formation on the surface in the places where the paint has been scratched and worn. Make sure to regularly remove ash from the fire pit, wash it off in clean water and dry it thoroughly when the items are cold. The product gets hot during use, so do not touch the product without gloves that can withstand the heat, and be aware of local legislation regarding the use of fire pits. Use of the fire pit is at your own risk (both to yourself and others).

HPSPDG / high pressure laminate

Compact laminate is a very suitable material for outdoor use. The material is resin-impregnated paper, compressed under very high pressure creating a strong top with a scratch-resistant surface. These table tops require basically no maintenance and can remain outdoors all year round. Compact laminate will naturally fade slightly at the edges over time. In order to maintain the deep black colour, the edges can be re-freshed up by rubbing a little linseed oil on them. It is recommended that you cover the table with a furniture cover in the autumn and winter period.

Cane-line HI-Core

Cane-line "Hi-Core" Stone is an innovative and durable Hi-tech composite core material developed specially for all weather outdoor use. The components are mainly acrylic, which gives high durability and abrasion resistance. Cane-line HI-Core has an elegant smooth and soft surface that rejects moisture, dirt and bacteria. We recommend that you cover the table with a furniture cover during the autumn and winter period.

Indoor materials

Rattan

Rattan is the rascal of the jungle. Rattan belongs to the palm family. Rattan is a climbing plant, that grows over trees and other plants in the rainforest. There are about 600 species of rattan. Cane-line uses only the best and strongest for furniture production. Cane-line ensures sustainability in relation to the environment and human relationship in a society, which has its roots deeply embedded in rattan. Rattan is only for indoor use. For cleaning and daily maintenance, use a wrung cloth. Once to twice yearly clean with white soap flakes and lukewarm water wiping off extra fluid with a dry cloth.

Oak

Oak is a strong and durable type of wood, perfect for everyday indoor furniture. It boasts a beautiful, natural color palette ranging from light golden to deep brown, and the surface can be treated to customize its appearance. With its unique and varying patterns, oak gives each piece of furniture a personal touch. Furniture made of oak is robust and can last for many years.

Mahogany

Mahogany is a luxurious and sought-after wood type due to its deep color and fine, smooth finish. This hardwood is known for its durability and ability to withstand wear. Mahogany's grain pattern is typically straight and uniform, providing an elegant and sophisticated look. It is also relatively free of knots, contributing to a clean and polished aesthetic.

Leather

Cane-line leather is a slightly corrected semi-aniline leather with a soft grip, as well as a beautiful natural scar that gives character. The leather is chrome tanned and made without the use of PCP and CFC. All Cane-line leather is stained and for indoor use only. The colours and scarves shown on the leather are for guidance only. There may be colour or scarring differences from the displayed image to the actual skin from which the cushions are made. It is important to care for and clean leather cushions regularly, so that the leather can remain soft and maintain a comfortable sitting comfort. This also prevents the leather from fading or drying. We recommend using a leather care product.

Linoleum

Linoleum is a natural material and consists of linseed oil, cold pressed, to which dyes and various types of fillings are added. It can be resin, lime and cork, stone or wood floor. The material is not scratchproof and only for indoor use. Linoleum is a soft material that is easy to clean with a twisted cloth, and immediately wipe again with a dry cloth. Do not use dishwashing detergent, brown soap, or other ammonia-containing products. In case of stubborn stains, we recommend washing with water and soap chips, which will also leave the table with a surface that is more difficult to absorb abrasion. We recommend using coasters when applying hot pots and bowls on the material.

INDEX

For all items including a cushion,
the seat height includes the cushion.

Collection

At the heart of every Cane-line design you find our core philosophy: “*Life Made Comfortable*”.

All over the world our mission is to add value to life and spaces for togetherness and relaxation. We are constantly focusing on design, quality, innovative technologies and comfort to ensure that our collection offers maximum comfort and minimal maintenance. Our collection is made with the greatest care for the environment and the well-being of people.

Cane-line is a Danish design company with more than 35 years of experience in designing and manufacturing furniture and accessories.

We believe that great design is responsible design.
